June

- 10 Student Free Day
- 13 Queen's Birthday
- 24 Last day of term 2

Hello Everyone,

There was much excitement on the oval yesterday as our new goal posts were installed after being damaged earlier in the year. We are extremely grateful to AFL Northeast for arranging donation of the posts (worth several thousand dollars) after we contacted them explaining the situation. The cost of installation of the goal posts was supported through fundraising efforts.

Thank you to our student leaders showing great initiative in assisting with making warm Milo in the canteen yesterday. They had many happy customers and there was plenty to go around. We hope to do this more often through the Winter months. Breakfast club has also been a hit this term with the introduction of warm toast and jam or vegemite this week. Starting the day with a good breakfast helps our students engage in their learning for longer.

At assembly on Monday, we congratulated our first Maths Challenge winners for each unit. We are encouraging students and their families to celebrate maths at home with conversations and sharing strategies to come up with solutions for the challenges. Thank you to those families who have submitted answers so far.

Thank you to the parents who were able to come along to our fundraising meeting on Monday night. We look forward to the activities we have planned for term 3 and 4 and thank you in anticipation of your support. The first date to put in your diaries will be a Second Hand Book stall and Cake stall held at school on Saturday, 30th July. More information will be sent home before the end of term explaining ways you may be able to assist.

A reminder that tomorrow is a student free day. Staff will be working on student reports. The office will be open 8:30-1:00pm. Monday is also a student free day for the Queen's Birthday public holiday. We hope you all stay warm and have a safe and relaxing long weekend.

Fiona Carson - Principal

Certificate of Recognition

Xavier Bassett

Well done to all our district cross country participants!

This week's award recipients.

Book Club orders
due Friday 10th
June.

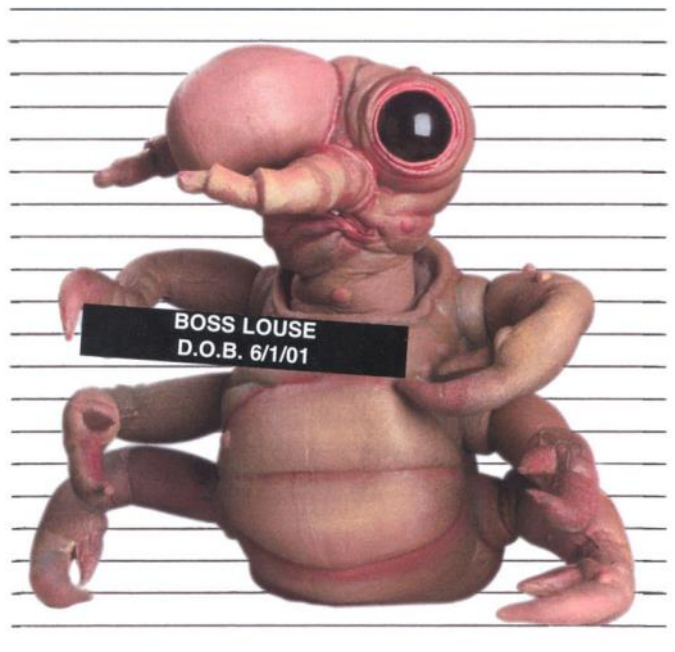

COMING HOME TODAY!

Look out for Chocolate Fundraiser Boxes (\$60 per box)
and End of Term Toastie Order forms

FOOTY IS BACK!

WANTED

'Cuz if you don't get 'em out... you've still got 'em!™

ALL OUT COMB OUT™

Headlice are an ongoing problem at school.
Please check childrens' heads regularly.

Maths Problems of the Week!

We are looking to promote maths and problem solving at home. This week we have some problems for each unit to try. You can do them all if you like, but just return the one from your own unit. Parents and guardians are encouraged to work with your child and help support in ways of finding the answer. Cut out and return your answer to Mr Kerlin before next Wednesday to go in the draw for a prize. Winners will be drawn at assembly.

Junior Unit

The solution to a number problem is 60 but your teacher can't remember the question. Create a problem or question so that the solution is 60.

Challenge: Create an easy, medium and hard option.
